DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-5 and 12-20, drawn to an apparatus, classified in class 425, subclass 542.
- II. Claims 6-11, drawn to a method of preparing resin, classified in class 264, subclass 211.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed can be used to practice another and materially different process, such as one that does not require a chemical initiator.

A telephone call was made to David Henn on 11 September 2003 to request an oral election to the above restriction requirement, but did not result in an election being made. It is noted that his phone number has changed from (716) 423-4299 to (585) 423-4299.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
